IFA 2017: Change in Keynote Lineup

Foxconn keynote postponed until 2018

Berlin, 16 August 2017 – CEO Terry Gou has postponed his appearance at IFA Keynotes, the global stage for internationally outstanding industry leaders, until IFA 2018.

2017 is proving to be an extremely eventful year for the Taiwanese electronics giant Foxconn. "We are currently focusing on a global investment project that fully occupies the company's strategic management resources. In light of this, we have decided that 2018 will be the ideal time for the previously announced IFA keynote," Terry Gou explained.

"We would have been very happy to present Foxconn on the Keynote stage this year, especially with the growing importance of global supply chains in the digital electronics industry. However, we fully understand the situation and are already looking forward to IFA 2018," added IFA director Jens Heithecker.

Foxconn is one of the world's leading manufacturers of electronic and computer accessories

IFA 2017 Press Accreditation

Easy & convenient: use IFA's online accreditation in advance. Only a limited amount of accreditation will be possible at the show.
